Because this interview is voluntary, I will need to ask {ADOLESCENT /AGE/SEX} if {he/she/he or she} is willing to do it. However, I need to obtain your consent to talk to {ADOLESCENT /AGE/SEX} because {he/she/he or she} is under the age of 18.

I will ask questions about health and health behaviors, such as food, exercise, tobacco, alcohol and drug use. There are also questions about fighting and violence and sexual behavior. Children and teens have heard about many of these health issues in the classroom.

**[IF R OBJECTS TO QUESTIONS ON DRUGS AND SEX, SAY: "If you prefer, I can make sure that questions about (drugs/sex/drugs and sex) are not included in the interview. This is an important public health issue facing Arizona, but we understand that some parents may not feel comfortable if we ask their teenagers questions on this topic.]**

All the information is strictly confidential and will not be released to anyone. {ADOLESCENT /AGE/SEX} can skip any question and can stop the interview at any time. The answers will be used only for this survey. The interview takes about 15 to 20 minutes.

Also, we believe that young people tend to feel more comfortable doing the interview when their parents are not in the same room listening. Do you have any questions?
